June Speaker: The Speaker for June will be Bill Gorham. Bill runs Bowed Up Lures, a manufacturer of bucktails and jigs designed for cobia fishing. He is on the water much of the year and follows the cobia runs from the spring run in Hatteras to the summer and fall runs along north east North Carolina and the Chesapeake bay. Come out and learn some of the techniques required to catch a monster cobia this summer.

Hunt for Hardheads Fishing Tournament – May 14th

Congratulations to the Virginia Beach Anglers Club for winning this year's Hunt for Hardheads tournament! The club was well represented this year with all five boats making it out to fish. Each boat competed well and provided plenty of quality fish for the measuring board. All proceeds of the tournament benefit the Sunshine program in association with Portsmouth Anglers Club. Melanie Bayford assisted with her division winning croaker and Chris Schneider captured the top spot in the bluefish division.

Coast Guard Vessel Safety Inspections

Coast Guard vessel safety inspections are available to the public for free. The process is very simple and they meet you anywhere that is convenient for you. They will meet you at a house, boat ramp, or marina... Wherever your boat is stored.

To get to the website for a Vessel Exam go to <http://safetyseal.net/>.

You will be redirected to the webpage:

<http://wow.uscgaux.info/content.php?unit=V-DEPT&category=i-want-a-vsc>

Fill in the form provided and submit, and a Vessel Examiner nearest to your zip-code will call you or email you to set up a vessel exam in your driveway, at a boat ramp, or in a marina, wherever you have your boat. It does not need to be in the water to be examined.

For a "Virtual Safety Check", to see for yourself ahead of time what will be examined, [Click Here!](#)

Boater Safety Requirement

In 2007, the Virginia General Assembly enacted a law to establish a [boating safety education compliance requirement](#). This requirement was phased in over the last several years and on July 1, 2016, all operators of PWCs (Personal Watercraft such as jet skis, Sea Doss, Wave Runners) and operators of Motorboats with a 10 hp or greater motor, will be required to have a boating safety education course completion card on board when operating a PWC or Motorboat.

Click on any of the buttons or links to access those parts of the VDGF website.

Credit: <http://www.dgif.virginia.gov/>

As of July 1, 2015, all PWC operators age 14 and older and motorboat operators 50 and younger must complete a boating safety course. Beginning July 1, 2016, all PWC operators age 14 and older and all motorboat operators regardless of age need to take a boating safety course.

PWC Age Restriction: No person under the age of 14 may operate a PWC. Those operators 14 and 15 MUST show proof of completing an approved and accepted boating safety course either in a classroom or online. The challenge exam or other provisions of the Education Compliance Requirement do not meet the requirements of the age restriction law.

Fishing Reports for May

Fishing has really picked up this may, especially with the improved weather.

Offshore Fishing

Left: Larry and Josh participated in the Jim Brincefield Memorial Seabass Tournament aboard the Ocean Pearl. While you're out there, why not get in on the hot action of tuna!

Right: A few of the club members arranged a tuna trip in NC early last month.

Cobia and Drum

The action has been a little slow so far with water temperatures mixed up a little more than normal this spring. Anglers have been catching tons of sharks and rays. The best pictures provided have been the amazing sunsets out on the water. Sight casters are having better luck than chummers so far. Cobia action should pick up as the warmer weather sets in.

Cobia Skunk and Sharkfest: By Dr. Ike

Dr. Ike went fishing for cobia on Bob Stuhlman's boat with him and Mike Anderson on Saturday 5/28. Beautiful blue day with light SW winds greeted us that morning launching from Marina Shores Marina. Picked up small croakers off of Little Creek Amphibious Base which we used with fresh menhaden and crabs for bait and menhaden chum and anchored and set up on the 9 ft Shoals along with many other boats on an outgoing current. Then we proceeded in catching one shark after another with a large cow-nosed ray mixed in. All sharks were 4-5 ft. long and frequently bit off the hook if we couldn't get the hook out soon enough. Fished from about 9-2 pm covering the last half of the outgoing and first two hours of the incoming on both sides of the CBBT on the shoals and didn't see a cobia or red drum caught near us. When the SE wind started to pick up we began trolling in with gold spoons hoping to run across drum or cobia but only caught one 11 in. half-pound bluefish. I didn't think it would count for the month targeted fish for May but included the pics and weight taken at Long Bay at Marina Shores anyway.

Fresh Water

Fishing Lake Prince: by Dr. Ike

Russell and I went fishing at Lake Prince on 5/16 looking for shellcracker sunfish that usually are biting good this time of year. It was a beautiful day with light NE winds. After setting up and beginning to fish with red wiggler worms on a jig head under bobbers my line went off and after a quick fight I brought in a shellcracker that weighed 1 lb. 5 oz. when weighed at Oceans East later in the day. This was my first citation shellcracker ever and it ended up being the only shellcracker that we caught all day. However, after getting my line set up again in just a matter of minutes I had what we figured was a large catfish on the same ultralight rod with 6 lb. line. This catfish was pulling hard and taking line fast since I couldn't add drag for fear of breaking him off. So I kept the pressure on him and let him tire himself out. After about a 15 minute fight around the boat I got him to the surface. It was a blue catfish that weighed about 10 lb. 13 oz. on my digital scale. That was exciting to say the least and the biggest fish I've ever caught on an ultralight spinning rod. From that point on it continued to be a catfish fishing trip as we ended up with Russell catching two flatheads and one channel catfish about 1-2 lbs. each. I also caught a flathead. These flatheads were caught on minnows since they prefer live bait. All in all, a good day on the water that gave us a good load of catfish for eating later.

Surf Fishing

Saturday May 7, 2016, Sandbridge, Virginia

Somehow I ended up with some free time this afternoon. I stopped by Atlantic Bait and Tackle to see if they had heard of any surf fishing reports from Sandbridge. They had not heard of anything going on. I decided to pick up a package of frozen mullet and go give the surf fishing at Sandbridge a try anyway. I was hoping to see what the possibilities for the up-coming intra-club tournament looked like. It was 2:30 pm by the time I got to the beach. I had my first bite within 10 minutes. It was a 12 ¼" bluefish. I was on the board! The next cast produced a double hitter, a 12 ½" and a 17 ¼" blue. I fished from 2:30 to 5:30 and caught 9 blues from 12 ¼" to 18 ½". I took the 18 ½" blue to Atlantic Bait and Tackle to be weighed and it tipped the scales at 1 lb. 9 oz. It was a GREAT day on the beach and the outlook for the intra-club looks really good!

Tight Lines!
Robbie
