The President's Corner

The heat is still on and the fishing remains hot. The next couple of months have plenty of fishing opportunities with the club. Our Stan Sutliff surf tournament is the 17th of this month. Come on down to Sandbridge and enjoy a morning of fishing, have some lunch and camaraderie with other club members. Our annual Oyster Roast is on the 15th of October, come early and fish in the surf and hang out for the roast. It is always a good time with great food. In December we will be having our elections for officers and board members. This is a great way to get involved in the club and we are always looking for new members to get on the board. Wishing you fair winds, following seas, and tight lines.

Chris

Surf Fishing Opportunities

ATTENTION ALL ANGLERS!

The club is looking for members interested in fishing for our fall surf tournament teams. Each of our major fall tournaments have an opening on a surf team.

Hatteras Village (NC): Friday Sept 9 & Saturday Sept 10.

Long Beach Island (NJ): Saturday Sept 24.

Nags Head (NC): Thursday Oct 6 & Friday Oct 7.

Cape Hatteras (NC): Thursday Nov 3 & Friday Nov 4.

Basic Tournament Format:

Tournaments last for two days with four fishing sessions. The tournament usually fishes either a Thursday, Friday, and/or Saturday. Club members drive their vehicle on the beach to their fishing spot and members without a vehicle can ride with those who have an ORV. The club rents a lodge for the team at a house and the lodge is available for you to stay the entire week (Sunday to Sunday).

New tournament anglers can get paired with a tournament veteran to help guide them through a tournament. This is a great opportunity to for you to meet club members with similar fishing interests. You can also receive assistance with rigs/bait/tackle/rods etc. as needed.

These tournaments coincide with the peak of the fall fishing season. Don't miss out on the experience of a lifetime.

Contact Kelly Hoggard to inquire about our fall surf fishing schedule.

Proposed Right Whale Safety Changes Could Affect You.

AGENCY:

National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION:

Proposed rule.

SUMMARY:

NMFS is proposing changes to the North Atlantic right whale (*Eubalaena glacialis*) vessel speed regulations to further reduce the likelihood of mortalities and serious injuries to endangered right whales from vessel collisions, which are a leading cause of the species' decline and a primary factor in an ongoing Unusual Mortality Event. The proposed rule would: (1) modify the spatial and temporal boundaries of current speed restriction areas referred to as Seasonal Management Areas (SMAs), (2) include most vessels greater than or equal to 35 ft (10.7 m) and less than 65 ft (19.8 m) in length in the size class subject to speed restriction, (3) create a Dynamic Speed Zone framework to implement mandatory speed restrictions when whales are known to be present outside active SMAs, and (4) update the speed rule's safety deviation provision. Changes to the speed regulations are proposed to reduce vessel strike risk based on a coast-wide collision mortality risk assessment and updated information on right whale distribution, vessel traffic patterns, and vessel strike mortality and serious injury events. Changes to the existing vessel speed regulation are essential to stabilize the ongoing right whale population decline and prevent the species' extinction.

Needs Survey – Harmful Algal Bloom Assessment and forecasting in Chesapeake Bay

Dear VBAnglers,

My name is Elizabeth ‘Betty’ Staugler, and I am a harmful algal bloom liaison (HAB) for the national Sea Grant network. I am working with the National Oceanic and Atmospheric Administration (NOAA), and agencies and organizations in the Chesapeake Bay area to develop a workshop designed to advance harmful algal bloom assessment and forecasting in the Chesapeake Bay. We anticipate this workshop occurring in early 2023. As we plan this workshop, it is important for us to know what needs different water dependent users have for HAB detection and forecasting information. To help guide the workshop, we have developed a pre-workshop survey. This survey, which is anonymous, should take approximately 15 minutes to complete. One of our steering committee members provided your contact information and indicated that you might be willing to share this survey with the Virginia Beach Anglers Club membership via the Tightlines newsletter.

Your survey input is very important to us and the information provided will greatly improve the workshop that we develop. Thank you for taking the time to assist in this endeavor. If you require additional information or have questions, please contact me, Betty Staugler at staugler@ufl.edu.

Complete the survey

at: https://ufl.qualtrics.com/jfe/form/SV_1BJsCjoiKPQfex8 All survey participants must be at least 18 years of age or older.

This survey was approved by the University of Florida Institutional Review Board (IRB): IRB202201559.

Thank you,

Betty Staugler | NOAA HAB Liaison

Photos for the Calendar

Have you been outside recently or on a walk and saw something that might have been pretty or unusual? Some local scenery, perhaps something in the marsh or trees or somewhere on or near the water? These are the sort of pictures all of us see from time to time and could be representative of the season. It's this type of photo that can make a great submission for the calendar. Those photos that are selected will have the photographer's name by them in the calendar.

Don't forget the annual photo contest! A \$50.00 prize will be awarded to the member submitting the photo selected as the year's best.

The website is being updated with current photos. Send in your catch pics please.

So..... get out there, take some pictures, and submit them via email to your club! Send them to vbangersclub@gmail.com.

Thank you!

Hello Jeff,

As our offshore work on the Coastal Virginia Offshore Wind (CVOW) projects continues, we remain committed to maintaining communications with fishing communities and other mariners in the area via these periodic updates as well as dock visits, informational speaking engagements and additional information posted on the [CVOW website](#).

All mariners are encouraged to contact Dominion Energy's Fisheries Liaisons below with any specific questions about the status of the projects in relation to fisheries.

Recent announcements include:

- Dominion Energy has initiated UXO Surveys within the export cable corridor (Areas A & B) and the Coastal Virginia Offshore Wind (CVOW) lease (Area C) and activities are expected to continue through 2022. The vessels being deployed and the areas to be surveyed are identified below.

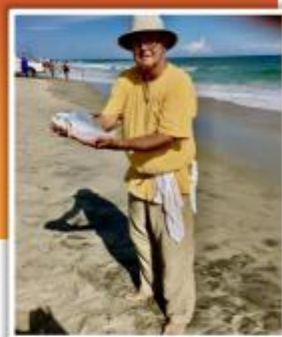

Mariners transiting or fishing in the survey area are requested to provide a 0.5 NM wide clearance to survey vessels, which may have limited maneuverability due to towing gear up to 1,000' behind the vessel. Mariners should operate in a manner that will not endanger themselves, the survey vessels, its crew or the equipment.

2023 VBAC elections

Our club elections are held at the December meeting. All of the open positions on the board as well as vacancies in the slate of officers are voted on by the membership at that time. Everyone in the club has an opportunity to run for a spot to help guide their club's direction for the future. It has nothing to do with how long or short your time as a member has been. Names have to be in by the November meeting. If you have any questions or interest, please feel free to speak to a board member at the next meeting. They are all listed on the last page of your newsletter and you may reach out at any time via email at vbangersclub@gmail.com.

To Offer a Boat Ride or offer to Crew for Someone Else.....

Your board has tried to come up with a way boat captains could notify members who might be interested in fishing that there was an opportunity to go out. There is a new Facebook page our members will be able to join that helps registered members interested in fishing to get together. For example; captains who might be going out on Saturday can post on Thursday the opportunity for someone to go with them. Interested anglers will be able to check on a regular basis and when seeing a convenient posting can make the arrangements with the other party. Hopefully, this will give everyone in the club an opportunity to go out fishing more effectively. The “Boats and Crew” section of the newsletter will be phased out when this site is fully in use. The instructions are listed below.

- 8) Sign into your Facebook page.
- 9) On your Home Page, go to “Groups”.
- 10) Go to the “Search Groups” section of your Facebook page.
- 11) Type in “VBAC Fishing Crews”.
- 12) When the site comes up, click the “Join” button.
- 13) Site Administration will approve your request within 24 hours.
- 14) Thereafter, the site will be listed in your “Groups” section so you can easily reach it afterwards.

Salt Water News

Lynnhaven puppies:

Russell got me out one day 8/12 in the morning when the NE wind was blowing keeping the water in the Lynnhaven at high tide. It was a beautiful day and Russell got the first fish, a 25 inch puppy drum at the first cove we ventured in within 15 minutes fish. We were using minnow under bobbbers since the crabs were eating everything fished on the bottom. Then we proceeded to fish every cove we could think of for 3 hours before I caught the next one at 21 inches. Once the tide reached low we gave up. But it was a beautiful morning fishing. Thanks Russell.

Topwater Morning with Louis:

Despite my limited ability to get around with my broken hips Louis has been getting me out in his Carolina Skiff to fish the Little Creek at daybreak looking for the reds, blues and specks that show up when we use topwater lures. Most days we have been lucky to catch a few bluefish on topwater which is a blast. But on the 18th at daybreak I was lucky enough to hook a 26 inch puppy drum along with a limit of tailor bluefish. It smashed a Hadden One Kocker Spook and gave me a great fight at the last place we fished that day. We routinely fish the LC side of the jetties both in the channel and on the LCAC side and the point red marker.

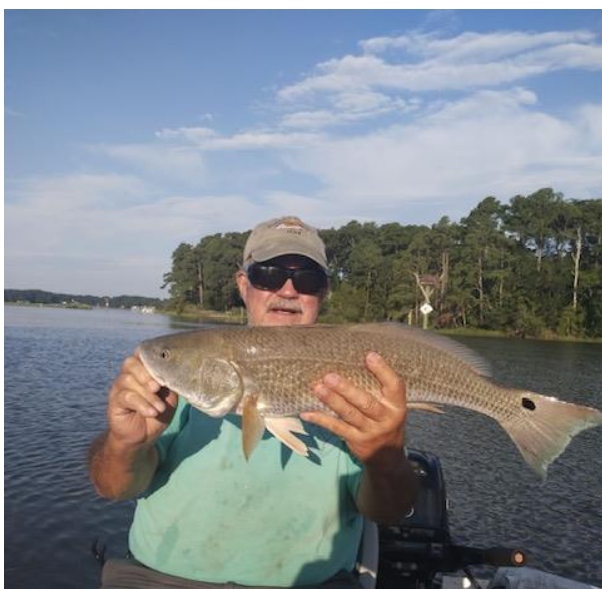

Last week Louis and I fished three mornings in a row and consistently got a bluefish limit (3 per) or better. On the 25th I was lucky enough to hook a 23 inch striper who gave me a good fight and I quickly released it after we got the photo. I thought it was a speck at first. But regardless I caught an 18 inch speck a little later in addition to a limit of blues. Louis has been doing quite well with the blues and specks in both morning and sunset trips as well. The bite has been picking up and the bait is everywhere which is probably why we getting the variety now. Topwater action is the most fun since it's so visual and the blues are very likely to go airborne on you as you fight them. This has been a great week with the New Moon keeping the water high. Many thanks to Louis Glaser for getting me out to fish.

Blessings,

Dr. James W. Ike Eisenhower

A Great New Car Wash is Here! Fast...Clean...Easy **Free**
Vacuums Always!

FAST

Coastal Breeze Car Wash is uniquely fast and precise. We offer a three stage process that cleans, protects, and shines your car in under 8 minutes from the moment you pass through the gates. After you are done, go and visit one of our 20 FREE High Powered Vacuum stations to give your interior the cleaning it deserves.

CLEAN

We partnered with world class chemist from industry leading brands like Simoniz and Rain-X to be at the forefront of car wash technology. Each stage of the car wash process is meticulously tuned and chosen to provide you with a clean and shiny exterior we all can be proud of.

Stage 1

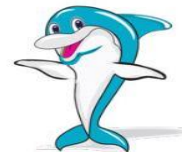

Your car goes through the cleaning process to remove dirt and debris.

Stage 2

High quality waxes are applied to your vehicle to provide a showroom quality shine.

Stage 3

We seal and protect the paint with our carefully curated protectants.

EASY

At Coastal Breeze we take pride in making the customer experience simple and easy. Everything is done in three easy steps.

Step 1

Pay using our easy to use kiosk, or skip paying and save money by using a Fast Pass "Breeze thru" plan.

Step 2

Our state of the art equipment will guide you through the three stage cleaning and drying processes.

Step 3

Visit our free high powered vacuums to finish the process, and enjoy the rest of your day!

VBAC MISSION STATEMENT

The purpose of the VBAC is to encourage sport fishing, both freshwater and saltwater, while supporting prudent governmental and other policies that promote the preservation, conservation and ecology of all marine life.

Our Objectives:

- ❖ Monitor legislative and regulatory activities relating to management of local and regional fisheries and participating actively, where appropriate, to assure the adoption of sound management policy and practices that best serve the interests of VBAC members.
- ❖ Promote interest and participation in recreational angling by conducting programs and activities that encourage sport fishing.
- ❖ Educate members and others in the techniques of sport fishing to enhance their enjoyment of the sport.
- ❖ Conduct social activities that create a wholesome climate for deriving the maximum pleasure from sport fishing by members, their families and guests.
- ❖ Plan and conduct fund raising activities to provide the revenues needed to support these objectives.
